A Soul in Deadly Peril.

I will relate a circumstance which

fearing man, a tectotaler of some year's standing, suffering from an abcess in his hand, which had reduced him very much, applied to me for advice. I told him the only medicine he requirtatehed, is waiting, he moves without I should not like to be one again.

He was, much against his will, pre vailed on to take the stout, and in time he recovered from his sickness. When he got well, I, of course, praised up the virtues of stout as a means of saving his life, for which he ought ever to be thankful; and rather lecvailed on to take the stout, and in ever to be thankful; and rather leetured him on being such a fanatic (that's the word) as to refuse taking a bottle of stout daily to restore him to his former health.

told him the only medicine he required was rest; and to remedy the waste going on in his system, and to repair the damage done to his hand, he was to support himself with a bottle of stout daily. He replied: "I cannot take it, for I have been some years a teetotaler." "Well," I said, "if you know better than the doctor, it is no use applying to me." Believing, as I did then, that the drink would really be of service to him, I urged him to take the stout as a medicine, which take the stout as a medicine, which would not interfere with his pledge. He looked anxiously in my face evi-pently weighing the matter over in is mind, and sorrowfully replied :-Doctor, I was a drunken man once ;

Even in his poverty, drunkenness, and misery, I discovered it was my teetotal patient whom I had, not so long ago, persuaded to break his pledge. I could not be mistaken. I had reason to know him well for he had been a member of a Methodist church; an indefatigable Sunday School Teacher, a prayer-leader.

Stewart in his Store.

Stewart gives to his retail house a good share of personal supervision. He arrives every morning punctually at 10 o'clock, and remains usually an hour and a half. He is usually there again from 5 to 5:30 in the afternoon. On the morning visit he consults with Mr. Tellur, the General Superintendent, and never fails to go over the en-tire establishment to gain a personal knowledge of its condition. He enquires of the clerks how articles are selling, and stores away the answers in the shelves of his memory; and when he finds any line of goods a drug he orders them marked down. saying "Let us see if people will take them at that;" if they do not, he or-ders a further reduction, for it is an inexorable rule with him not to carry and stock. It has been said of him that he would rather give away goods that he would rather give away goods outright than carry them over a sea-son; but it has not been asserted that he ever was reduced to that extrem-ity. He avoids it in the first instance, perhaps, by this direct personal charge of his retail house. He knows every day what is in it, and exactly how everything is selling; and he is greatly aided in getting rid of goods of questionable pattern by his intuitive knowledge of the fluctuations of pop-ular taste. Woman's whims dominate the dry goods market, which is of course, capricious as April weather but Stewart is never at fault, and promptly tacks with every change. Perhaps he sees the signs of their comcurred to me some years ago, the re- ing during those hours at his retail sult of which made a deep impression house in the morning and in the after-

When we saw what a neat job it was, we thought we would keep it. When we got home we were late for supper, and we just dropped it on the porch and rush-ed in. We had a sort of sneaking hope that the old man and our uncle would get bit with it anyway, they were always puttering over geo logy or natural history, or something they didn't know anything about.-While we were at supper they came along and found the bird; and we heard them discussing it and talking all sorts of astonishment. Directly

the old man came in, having the bird by the leg, and says: "Boys, where did you get this bird!"
"Shot it in the woods, sir." "Did you ever come across any oth-er bird like this around here?" "No, sir, this is the first."
"Boys,do you know what you have?

You have discovered something that will make you know everywhere.—
The bird is of a new species."
